

Interoperabiliteit

Gekoppelde MSP's en CPO's

Het beheerplatform van Pluginvest, via Last Mile Solutions, is interoperabel met bijgevoegde lijst van meer dan 450 Mobility Service Providers (MSP's) en Charge Point Operators (CPO's). Op dit moment zijn er meer dan 275.000 publieke laadpunten toegankelijk via de roamingovereenkomsten en het platform van Pluginvest.

Via de koppeling met volgende roamingplatformen wordt de nodige interoperabiliteit gegarandeerd.

- eViolin
- Hubject
- Gireve
- E-clearing.net

Het platform is bovendien als één van de eerste platformen in Europa ISO27001 gecertificeerd.

De eindgebruik kan eveneens gebruik maken van een mobiele App waarop de publieke laadpunten eenvoudig terug te vinden zijn.

(update: 10-2022)
